

Get found. Get contacted. Stop losing good leads.

We find where your business is losing customers, and we fix that step. Usually it is one of three things. We show you the before and after.

1. They can't find you

Your Google listing was never set up, or it is half empty. Ask ChatGPT *"who does this work in my town"* and your name doesn't come up. Ask about your business by name and it says *"I don't have information about that business."* We set up and complete your Google listing and fix what Google and the AI assistants know about you.

2. You don't have a website, or it doesn't work

We build you a full website: a home page, a page for every service, a page for every town you serve, your real photos, a number that calls you with one tap and a quote form that reaches you. **Customers who already chose you should never leave because they couldn't reach you.**

3. The ones who find you slip away

A form nobody answered. A quote nobody followed up. A happy customer nobody asked for a review. The monthly plans handle this: review requests, reply drafts, and follow-up on every new lead. It helps the people who work for you. It never replaces them.

What it costs

Visibility Check
We look you up the way a customer would and show you what comes back. Ten minutes.

Free

PLAN	FITS	TO BUILD	EACH MONTH
Small	A one-truck or one-person business with a few services	\$600	\$99
Standard	Most businesses	\$800	\$199
Bigger	A bigger crew, a wide service area, or two locations	\$1,000	\$300

After the free check I recommend one plan for your business and give you one price. **The price doesn't move after that.** Every plan gets the same build, done two weeks after your payment and photos arrive. We host the site and keep it working. **The domain is registered in your name and stays yours.** Cancel with 30 days' notice, no long contract. After twelve months you can buy the site outright for \$2,000.

Included in the build

Found

- ✓ A real page for every service you offer
- ✓ A page for every town you serve
- ✓ Your actual job photos, not stock
- ✓ Written so search engines and AI assistants can read you
- ✓ Google listing claimed and verified in your name

Contacted

- ✓ Your number one tap away on every page
- ✓ Tap to call, not a number to copy down
- ✓ A quote form that reaches you, tested first
- ✓ Hours correct on the site and on Google
- ✓ Call button switched on in your Google listing

The before and after

Before we touch anything we write down what we find: where you show up, what Google knows, what the AI assistants say, and how hard you are to reach. The day the site goes live we measure the same things and send you both. **Every line is something you can check yourself.** We won't claim your rankings moved in a week, because they won't. That's what the monthly report is for.

What the monthly covers

PLAN	WHAT YOU GET EACH MONTH
Every plan	Hosting and security. Reasonable edits: hours, prices, service details and new photos (email us, it's done; new pages are quoted first). Your Google listing kept current. A visibility check every quarter.
Standard adds	A monthly report: where you show up on Google, and whether ChatGPT, Gemini and Claude named you. Review requests by a QR card at your counter and by email. Replies to your reviews drafted for you to approve.
Bigger adds	Every new lead sent to you and your staff by email, with a same-day follow-up drafted. Emails to past customers. A 15-minute call with us every month.

What we don't do

No social media, blogs, ads or logos. No chatbots or AI that talks to your customers. Nothing that replaces somebody on your payroll. No long contracts. **We're not a marketing agency.** One job: when someone looks for what you do, they find you and they can reach you.

How it goes

- 1 **Free Visibility Check.** Ten minutes. We show you what a customer sees. If it's fine we say so and you've lost nothing.
- 2 **Build.** Send photos, answer a few questions. Live in two weeks, before and after in your inbox.
- 3 **Every month after.** We keep it working and send you the proof.

Start with the free check. Worst case you find out you're fine.
